Inglewood Virtual Block Party

Inglewood Community and beyond, THANK YOU for helping us #RockTheBlock on July 4th in celebration of our kick-off to summer...#COVID19virtualstyle!

With over 120 attendees from Inglewood and surrounding neighbourhoods, the party was bumpin' and the sense of community strong!

Special thanks to DJ Johnny Mazeeka of Talent Productions for joining us live, and for keeping up with all of our requests! Three lucky prize winners went home with an electric fire pit set, a backyard

games package and a gift certificate to a local staple @Sherbrooke Liquor Store.

Thank you again to all who participated and to the League Programming Volunteers for all of your time and effort spent in the planning process.

Please don't forget to "Save The Date" for Community League Day on September 19th. There will be more details coming in the following weeks, which we will share via social media, on our website and in our next e-bulletin.

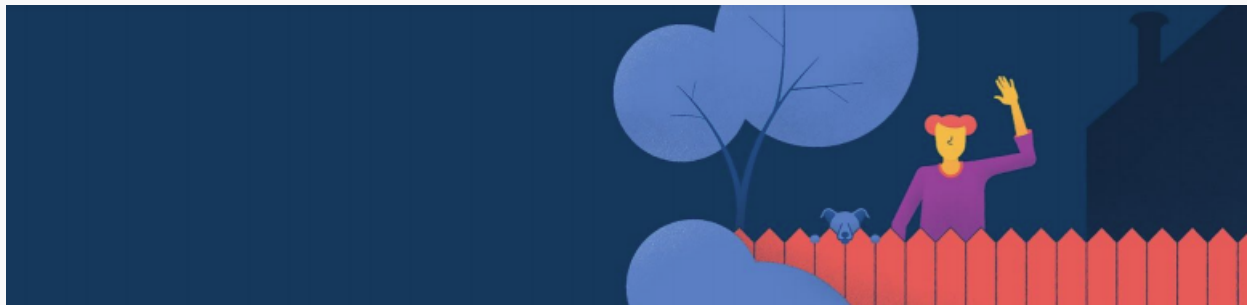

Have a wonderful summer everyone.

Stay Happy, Healthy & Safe

Inglewood Supportive Housing Roundtable

The City of Edmonton is proposing the development of a 5-storey (30 unit) supportive housing development in Inglewood at the location of 12312 112 Avenue. This development will provide people who have experienced homelessness with the support, safety, and stability they need to lead healthy and connected lives through on-site staff and wraparound services.

The City wants to hear from you! If you are interested in participating in the engagement process email supportivehousing@edmonton.ca and follow edmonton.ca/supportivehousing for up to date information on the project.

A roundtable will be hosted online by the City August 4th at 7:30 PM. This is your opportunity to learn more about supportive housing and share your feedback.

Creeping Bellflower: Noxious Weed!

It's that time of year again when creeping bellflower is in bloom and can be seen all around Inglewood.

Creeping bellflower can be an aggressive invader in natural plant communities. It can survive droughts and survive in a wide range of light conditions. This plant's thick creeping roots can travel under fences, lawns, and concrete, making it very difficult to control. This plant is also resistant to many chemicals.

Each plant can release 15k seeds and it also reproduces through a tuberous root system. Bylaw officers can issue you a hefty fine if found on your property!
